

Marilyn Kirkpatrick is working to bring jobs to Southern Nevada.

And Marilyn's hard work will pay off for us.

Marilyn Kirkpatrick knows our economy can't be changed overnight. That's why she's working on short-term and long-term solutions.

Nevada Jobs First

Marilyn Kirkpatrick's proposed legislation will give Nevada citizens an advantage in getting hired on government public works projects and contracts.

Marilyn will make sure Nevada citizens get the first chance at the jobs which can start to rebuild Nevada.

Nevada Businesses First

Marilyn Kirkpatrick's second legislative measure gives Nevada companies a leg up in bidding for the many jobs and projects hired out by local and state government.

If the companies are already established here and hire Nevada workers, they will get bid preference so businesses keep going and our neighbors can get back to work.

Putting Us First

Marilyn Kirkpatrick has more common-sense ways to get Nevadans back to work and Nevada moving forward again. You'll be hearing about those plans in the coming weeks.

Marilyn is taking the lead in helping working folks and Nevada's small businesses get going. She's putting us first. After all, Marilyn Kirkpatrick is one of us.

**Marilyn Kirkpatrick...
she's one of us.**
